Evolve your IT with a Modern Workplace solution from Blue Connections

Bring your industry-leading hardware, software, security and support together into a streamlined and cost-effective solution that's fully managed by the experts at Blue Connections.

The Blue Connections logo features a stylized 'BC' icon on the left, consisting of a blue square with a white 'B' and a white 'C' inside. To the right of the icon, the words "BLUECONNECTIONS" are written in a bold, uppercase, sans-serif font. The word "BLUE" is in blue, and "CONNECTIONS" is in black.

BC BLUECONNECTIONS

The way people work has changed. To be effective, your employees need to be able to work from anywhere, at any time, and on any device. And to do their very best work, they need the very best hardware and software at their fingertips.

However, as an IT manager, creating an up-to-date, secure and reliable workplace infrastructure can be both time-consuming and complex. As well as sourcing and implementing the most appropriate devices, you need to ensure optimal security, put disaster recovery and back-up processes in place, and ensure your software is continually patched and updated on every device. This can, of course, involve managing very different and diverse licensing arrangements, fleet arrangements and mismatched refresh cycles.

It's for this reason that more and more organisations are outsourcing their desktop management and why Blue Connections has developed our customised Modern Workplace solution.

The best hardware, the best software and the best support

Lenovo hardware

A world-leader in quality hardware, Lenovo offers a broad range of innovative hardware specifically designed for the needs of the modern workplace. Whether you're a team of one or 20, Lenovo has the technology you need to run your business your way.

Microsoft 365

With Microsoft 365 on your Lenovo hardware, you can create a truly modern workplace. This innovative software combines Office 365, Windows 10, and Enterprise Mobility and Security into one powerful and seamless solution.

Blue Connections Managed Services

As well as helping you source and deploy your new hardware and software, the team at Blue Connections can offer all the services you need on an ongoing basis, including user account profile management, data back up and restoration, mobile device management, security and 24/7 support.

How it works

With Blue Connections Modern Workplace solution, our expert team will source a selection of industry-leading Lenovo hardware, as well as Microsoft 365 licenses, on your behalf. As well as implementing your chosen hardware and software for you, we will also provide the ongoing technical support, maintenance and security you need to keep your business running efficiently, reliably and effectively, around the clock.

Plus, as our Modern Workplace solution is provided as a managed service, you simply pay a single, consolidated fee every month. No hassle and no costly overheads.

Just a simple, streamlined and easy to manage solution.

Our Modern Workplace solution can help you with:

● **Determining your requirements**

Our experienced team will work closely with you to evaluate your infrastructure, determine which assets you have now, examine any issues you are currently experiencing, and help you determine your specific needs.

● **Sourcing your hardware**

Through our ongoing Platinum Partnership with Lenovo, we are able to source a vast selection of industry-leading desktops, workstations, laptops, mobile devices, accessories and more.

● **Upgrading your software**

As a Microsoft partner, we are able to secure cost-effective licenses for the world's leading productivity software, Microsoft 365. This means we can take care of all of your licensing and implementation for you on an ongoing basis, including when employees join or leave your business.

● **Keeping you up to date**

We conduct ongoing monitoring and maintenance as well as regular reviews and updates to ensure your people always have the most appropriate tools and processes at their fingertips.

● **Ensuring security and reliability**

We will ensure your hardware and software stays up to date in terms of security, and that you constantly have rigorous back-up and disaster recovery processes in place.

● **Supporting your people**

Our helpdesk is available 24/7 to respond to any questions or technical issues, and provide your end users with a single and reliable point of contact.

● **Controlling your IT costs**

As our Modern Workplace solution is provided as a managed service, you simply pay a cost-effective monthly fee. By helping you move your IT from being a capital expense to an operating expense, we can help you streamline your cash flow and save money on expensive on-premise infrastructure. We also remove the burden of cost-effective IT maintenance and support, as well as the time-consuming activities of on-boarding, off-boarding and mobile device management.

↳ Why Blue Connections?

Blue Connections is a provider of best-in-class IT solutions to a range of Australian businesses in both the public and private sectors. We design, supply, implement and manage end-to-end technology solutions and services, and are established industry leaders, with over 500 ongoing customers.

Blue Connections has Platinum Partner status with Lenovo (we were their 2014 & 2017 Partner of the year) as well as a strong alliance with Microsoft. This enables us to create a modern workplace package with fully managed service support and flexible tailored options through the whole lifecycle, all for a transparent monthly fee.

In every instance, we perform extensive research to ensure we are always selecting the right devices for our customers' increasingly collaborative and mobile requirements, and we partner with our clients to support your solutions well into the future.

↳ Register for a complimentary business audit

If you're unsure about your hardware and software requirements, our team can conduct a complimentary business audit and provide you with a series of customised recommendations. Interested in learning more?
