

SAY HI TO AI WITH JABRA

A day in the life of a voice-powered gen AI enthusiast

Jabra technology is AI tested, optimized and approved to extract the very best from Gen AI tools.

It's time to revolutionize the way people work by turning voice into the most powerful productivity tool yet.

DID YOU KNOW, IT'S 4X QUICKER TO SPEAK THAN IT IS TO TYPE? SO, USE YOUR VOICE TO SAY HI TO AI!

Using information in files A and Z, help me rehearse for my pitch

PREPARE LIKE A PRO

Pair Gen AI tools with professional voice technology, like Jabra Evolve2 headsets, to simulate a real-life customer conversation ahead of your big meeting, and get valuable feedback on your sales approach too.

UP TO SPEED IN SECONDS

There was an important meeting yesterday outside of your timezone, but thankfully, the team used Jabra PanaCast 50. Certified by Microsoft as an Intelligent Speaker, it integrates seamlessly with Gen AI tools, like Copilot, to deliver accurate meeting summaries and detailed action items attributed to specific meeting participants, so you never miss a minute.

NEVER TAKE NOTES AGAIN

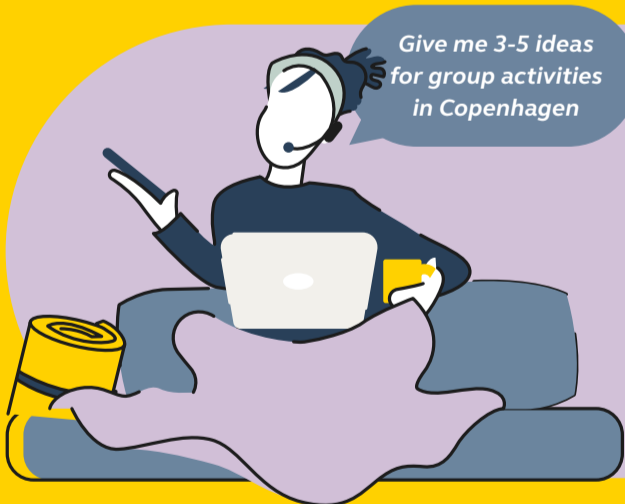

With a Jabra professional speakerphone, like Speak2, you can ask Gen AI tools to record that crucial in-person client conversation for you, and then summarize it and type up the notes too. With notetaking off the table, you can give your full attention to the person right in front of you.

REPLAY THE DAY

Sit back and enjoy stress-free recaps. With world-leading microphones, Jabra products ensure the best possible voice pickup for Gen AI software – providing accurate action items and reliable meeting transcriptions so you can put together a comprehensive proposal your customer can't ignore.

What are the top three issues I should address in my proposal?

Give me 3-5 ideas for group activities in Copenhagen

MORE TIME TO UNWIND

With Gen AI by your side, you can navigate your working day with ease, and get more time back at the end of it for the things that matter most. Plan that holiday, map out next year's strategy, catch up with a friend, or simply switch off from the world for a moment.

EASE MENTAL WORKLOAD

Get optimized meeting summaries and action items with Gen AI and Jabra PanaCast 50.

BOOST PRODUCTIVITY

Jabra Evolve2 headsets allow for voice-only interaction with Gen AI, unlocking hands-free productivity.

SAVE TIME FOR WHAT MATTERS

Pair Gen AI and Jabra Speak2 to record and summarize in-person client conversations.

With world-leading professional microphones, Jabra products deliver superior voice pickup – ensuring every word is heard, so that Gen AI can work to its full potential. Allowing businesses to unlock theirs. Trusted by over 80% of Fortune 500 companies, Jabra products are packed with 150 years of audio and video expertise – for a premium experience every time.
