## AMPLIFYING WELLBEING

With Jabra PanaCast 50, you and your team can enjoy stress-free meeting experiences designed to ease cognitive load and enhance mental wellbeing.

**8 premium beamforming microphones** capture multiple voices in the meeting room, even when people are speaking at the same time – bringing you more valuable and reliable meeting recaps without the need for tedious note taking.

**With Intelligent Speaker** enabled, PanaCast 50 is able to personally identify all voices in the meeting room using voice recognition. So whether you're dialing in remotely, or from the office, Microsoft Teams can attribute meeting recaps and action items to specific people, so there's no more confusion over who-said-what.

## UNPARALLELED PRODUCTIVITY

Engineered with precision voice detection, intelligent algorithms automatically identify and remove residual echo and static noise – **so the voices in the room are the only ones you focus on.**

PanaCast 50 also gives you features that champion collaboration, such as Dual-Stream Whiteboard. With this function, the built-in content camera lets you share your whiteboard content while continuing to stream in-room participants, **providing a more dynamic way of working that simulates a face-to-face meeting experience.**

The Intelligent Meeting Space feature defines virtual meeting space boundaries for you, **helping to minimize distractions** outside of the meeting room.

**FINISH MEETINGS UP TO 3X FASTER**

## MORE TIME FOR WHAT MATTERS

Spend less time on menial, repetitive tasks and get more of it back for the things that really count.

With a no-fuss, plug & play setup, you can join your meetings in an instant, without having to factor in extra time to connect your devices beforehand.

Meeting recaps and action items are available instantly, as soon as the meeting has ended. Clearer and more concise follow-ups help to enhance future meeting efficiency, which reduces overall meeting times.

Gen AI is here to revolutionize the way we work.

**IT'S TIME TO WORK SMARTER, NOT HARDER WITH JABRA PANACAST 50.**
