

SAY HI TO AI WITH JABRA SPEAK2

Make meetings work for you

Jabra Speak2 is the premium, professional and portable solution that allows Generative AI to take a load off your to-do list. Featuring **Super-Wideband Audio** and advanced **Full Duplex audio** in one compact solution, **Speak2** makes it simpler than ever for Gen AI to work to its full potential. It's time to call in a new way of working that enhances mental wellbeing, boosts productivity, and gives you more time back for the things that matter most.

MADE FOR AI

Engineered with **built-in advanced AI capabilities**, Jabra Speak2 is **AI tested, optimized and approved**, for a premium experience with Gen AI tools, every time.

Professional speakerphones with **Super-Wideband Audio** capture an even wider range of speech, helping Gen AI process every word perfectly.

Beamforming microphones are designed for **intelligent speech detection** – helping to filter out unwanted sounds to ensure Gen AI only captures the important content.

Full Duplex Audio powered by four state-of-the-art microphones and intelligent algorithms supports overlapping speech and transmission of audio in both directions at once – for audio that flows just like a real-life conversation.

DIALING UP WELLBEING

With **Jabra Speak2**, you and your team can enjoy stress-free calls designed to ease cognitive load and enhance mental wellbeing.

Make notetaking a thing of the past and focus on the now. With **Speak2** you can ask Gen AI tools to summarize your in-person meeting and type up the notes too, so all you need to focus on is the conversation right in front of you.

Lightweight, compact and portable – **Speak2** gives you the freedom to work from wherever works for you. With advanced **Super-Wideband Audio**, precision microphone performance and technology that refines the subtle tones in your voice, today's meeting room could be a café, the couch or a camper van on the beach.

UNPARALLELED PRODUCTIVITY

Unlock a new level of productivity and get more from your working day with **Jabra Speak2**.

The **innovative noise-reduction technology** inside **Speak2** silences background distractions, while **four state-of-the-art beamforming microphones** and the very latest **digital signal processing algorithms** focus on the conversation – ensuring Gen AI gets the information it needs, and noise in the background.

Speak2 is the **only speakerphone to feature a custom-designed Microphone Quality Indicator**. The **intuitive 360-degree light ring** shows you when you're coming across loud and clear, and when you need to huddle in a little closer – so you can help your Gen AI tools work at their best.

FINISH MEETINGS UP TO 3X FASTER

MORE TIME FOR WHAT MATTERS

Spend less time on menial, repetitive tasks and get more of it back for the things that really count.

With a no-fuss, plug & play setup, you can join your meetings and calls in an instant, without having to factor in extra time to connect your devices beforehand.

With **Speak2**, there's no need to spend time taking notes or typing up meeting summaries – Gen AI can do all that for you. Instead, you're free to invest your energy in tasks that really make the most of your expertise.

Gen AI is here to revolutionize the way we work.

IT'S TIME TO WORK SMARTER, NOT HARDER WITH JABRA SPEAK2
