

# SAY HI TO AI WITH JABRA HEADSETS

The future is calling

Jabra headsets give you the power to discover the true potential of Generative AI software. With premium professional microphones that deliver unmatched transcription accuracy – they turn your voice into the key that unlocks all Gen AI has to offer. So you can work smarter, not harder. **It's time to enhance mental wellbeing, boost productivity, and get more time back for the things that matter most.**

## MADE FOR AI

Engineered with built-in advanced AI capabilities, Jabra headsets were tailormade to extract the very best from Generative AI tools, giving you more flexibility to work at your best.

Premium professional microphones deliver **97% transcription accuracy\*** for AI software.

Block out background noise to ensure **superior voice pickup** for your AI tools with best-in-class Active Noise Cancellation

Enhanced hearing protection keeps sound levels safe using Intelligent AI algorithms

## DIALING UP WELLBEING

With Jabra headsets, you and your team can enjoy stress-free calls designed to ease cognitive load and enhance mental wellbeing.

The lightweight, ergonomic design delivers all-day comfort from ear to ear. Plus, with a design that's so compact, you can **take your headset anywhere** – giving you more freedom and flexibility to work from wherever.

Powerful Active Noise Cancellation (ANC) helps to **drown out unwanted background noise in busy environments**, helping to prevent cognitive overload and keep you calm and focused.

Superior audio quality means **crystal-clear meetings and calls every time** – allowing conversations to flow naturally and seamlessly (without any frustrating glitches), just like they would in real life.

## UNPARALLELED PRODUCTIVITY

With a Jabra headset, you can interact with your Generative AI software using just your voice. And since **we can speak 4x faster than we can type**, that means you can power through your to-do list quicker than ever before.

Standard true wireless devices are only able to catch 1 in 3 words correctly. **But with a Jabra professional headset, every word is captured, every time.** Reduced AI misinterpretations help you get the job done without costly communication errors getting in the way.

**97% transcription accuracy for AI software** ensures meeting transcripts are always reliable, so you can get accurate meeting recaps and action items even in noisy environments.

**FINISH MEETINGS UP TO 3X FASTER**

## MORE TIME FOR WHAT MATTERS

Spend less time on menial, repetitive tasks and get more of it back for the things that really count.

With a no-fuss, plug & play setup, you can join your meetings and calls in an instant, without having to factor in extra time to connect your devices beforehand.

Spot-on meeting transcripts and action items make notetaking a thing of the past – allowing you to focus fully on the meeting while it's happening and get straight on the action items afterward.

Gen AI is here to revolutionize the way we work.
